

# Rivers of France

Using our [website](#) or an atlas to help you, colour the lines of each river on the map below with a colour marker.

## Main rivers of France (fleuves)

|                                                                                     |         |                                                                                     |              |                                                                                       |       |
|-------------------------------------------------------------------------------------|---------|-------------------------------------------------------------------------------------|--------------|---------------------------------------------------------------------------------------|-------|
|  | Garonne |  | Rhine (Rhin) |  | Seine |
|  | Loire   |  | Rhône        |                                                                                       |       |
